

# ***LIST OF TABLES***

<b>Table No.</b>	<b>Title</b>	<b>Page No.</b>
	<b>Chapter 1</b>	
Table 1.1	Crop requirements for cashew	25
Table 1.2	Summary of cashew climate and soil in the countries	29
Table 1.3	Cashew arrival seasons from different countries	31
	<b>Chapter 2</b>	
Table 2.1	CAGR (%) in world RCN area and production	34
Table 2.2	Average country-wise RCN yield over the decades	34
	<b>Chapter 5</b>	
Table 5.1	APY of RCN in India	45
Table 5.2	State wise APY of RCN	46
Table 5.3	APY of RCN in Vietnam	47
Table 5.4	APY of RCN in Côte d'Ivoire	48
	<b>Chapter 6</b>	
Table 6.1	CAGR of RCN production (%)	49
Table 6.2	CAGR of RCN area (%)	49
Table 6.3	Projected RCN area and production till 2015	51
	<b>Chapter 7</b>	
Table 7.1	State-wise the adaptability and popular varieties	55
	<b>Chapter 8</b>	
Table 8.1	Year wise area, production and productivity of RCN in India	57
Table 8.2	Cashew development programmes	59
Table 8.3	Projected growth and demand of Cashew production	59
	<b>Chapter 9</b>	
Table 9.1	Quantity and value of imported RCN and CAGR growth	62
	<b>Chapter 14</b>	
Table 14.1	Trends in RCN processing costs in Mangalore (India) (Rs/kg of RCN)	86
Table 14.2	Labour cost for important processing in Mangalore	87
	<b>Chapter 16</b>	
Table 16.1	White wholes grade specifications by CEPC	92
Table 16.2	Scorched wholes grade specifications by CEPC	93
Table 16.3	Desert wholes grade specifications by CEPC	94
Table 16.4	White Pieces grade specifications by CEPC	94
Table 16.5	Scorched Pieces grade specifications by CEPC	96
Table 16.6	Dessert Pieces grade specifications by CEPC	98
Table 16.7	General specifications of grades by AFI	100
Table 16.8	Tolerances for defects and damage in raw cashew kernels by AFI	102

Table 16.9	Tolerances for defects and damages in Small Pieces by AFI	103
Table 16.10	White whole kernels grade specifications by Vietnamese cashew industry	104
Table 16.11	Scorched whole kernels grade specifications by Vietnamese cashew industry	104
Table 16.12	Dessert whole kernels grade specifications by Vietnamese cashew industry	104
Table 16.13	Broken kernels grade specifications by Vietnamese cashew industry	105
Table 16.14	UNECE classification based on quality	106
Table 16.15	UNECE classification based on size and form	106
Table 16.16	UNECE classification based on broken sizes	107
Table 16.17	Tolerance limits by UNECE	107
Table 16.18	Comparison of different quality specifications	109
Table 16.19	Size descriptions by various standards	112
	<b>Chapter 17</b>	
Table 17.1	Parameters are usually checked during cutting test	119
	<b>Chapter 18</b>	
Table 18.1	Nutrient comparison chart for tree nuts	122
Table 18.2	Biochemical and bimolecular composition of cashew kernel	124
	<b>Chapter 20</b>	
Table 20.1	Cashew kernel output and exports	131
	<b>Chapter 22</b>	
Table 22.1	Cross elasticity of pistachio and almond with cashew	139
	<b>Chapter 25</b>	
Table-25.1:	Nutritional facts of almond	148
Table-25.2:	CAGR (%) of almond imports	150
	<b>Chapter 26</b>	
Table-26.1:	Nutritional facts of pistachio	153
	<b>Chapter 27</b>	
Table-27.1	Absolute value of Indian nut consumption and prices	161
